Graphene Power Meter - GPM96
Power Quality & Energy Meter

Product Description

The GPM96 is part of the new smart Graphene-Meter-Series. The unit measures all-important system values like voltage, frequency, power, power factor, THDV, THDI harmonics (up to 63rd), displacement power factor, voltage crest factor, current K-factor, or voltage unbalance. The built-in Modbus RTU (Optional TCP/IP) interface ensures smooth communication to any other system.

Together with an accuracy class of Cl 0.5S (IEC62053-22) makes the GPM96 an allrounder and an ideal choice for any analysis in all kinds of electrical systems.
